

Experience AI Workflows with MagicBox

Discover How AI Can Transform Your Publishing Process for Greater Success.

AI is reshaping the way industries operate, and publishing is no exception. MagicBox offers advanced AI-powered workflows designed to streamline everything from content creation and assessment to image and text processing. Whether you're looking to enhance productivity or innovate your publishing process, our AI tools provide the edge you need to stay ahead in a competitive market.

What's in it for you?

AI for Learning: Empower Your Teacher Community

Generate questions & answers, summarize text, rephrase content, create image captions, generate keywords and refine alt text.

AI-Powered Math Step-By-Step Auto Grading for Your Students

Get instant feedback for each solution step.

AI for Assessments: Helping Your Teachers Achieve More with Less Effort

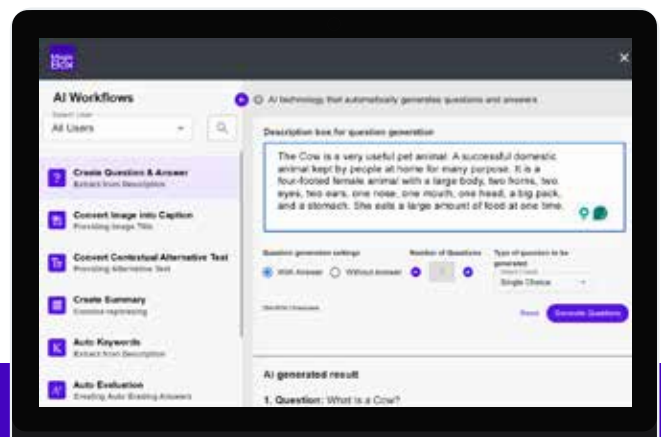

Grade questions automatically and create tests using AI.

AI for Image & Text Processing to Support Your Students and Teachers

Convert images to text and also translate text.

Partner with MagicBox to experience what AI can do and explore how these tools can transform your organization!
